- Unity
- C++
- Unreal Engine
- Team player
- Active communicator

EDUCATION

Bachelor digital arts and entertainment

Howest

2017 - 2021

LANGUAGE

English

Dutch

About Me

I'm an enthusiastic game developer heralding from Antwerp, Belgium.

Over the past years of development, I've learned that I'm a good team player, gratefully accepting feedback and looking for better solutions, and can respect deadlines.

I've specialized in unity development with a focus on networking, but know my way around UE.

I love sports, and can often be found reading, enjoying new stories.

WORK EXPERIENCE

Sep 2021 – Present

Triangle Factory, Gent (BE)

Game developer

- Active development in 2 live-service shooters: Breachers and Forefront
- Developing in Unity first with OOP and then an in-house variant of an ECS
- Active post-launch support keeping third party software up to date, e.g.: vivox, toxmod, psvr SDK
- Participating in code reviews to make sure it's up to par

Feb 2021 – Sep 2021

OneBonsai, Vilvoorde (BE)

Junior Gameplay Programmer Internship

- Creating new, reusable components to be used throughout different trainings.
- Networking through build-in Unreal functionality
